Up For auction is a new *STIHL* Chainsaw, Model MS 170, with a 16-inch bar that is the perfect chainsaw, lightweight with just the right amount of power for use around the house and **the deer stand!** Below is how *STIHL* describes this saw:

Discover for yourself some of the features that make these gasoline-powered chainsaws ideal for around-the-home use:

- *STIHL* manufactures its own saw chain for optimal performance and compatibility with your *STIHL* chainsaw. Swiss-made *STIHL OILOMATIC® Saw Chain* is pre-stretched before it leaves the factory, which helps eliminate excessive stretching during the break-in period, reducing maintenance time and component wear.
- Our *Ematic™ Bar Lubrication System* delivers proper lubrication while reducing oil usage by up to 50%.
- The **Automatic Bar and Chain Oiler** allows the operator to concentrate on cutting rather than bar and chain lubrication.
- The **Electronic Ignition** provides dependable and easier starting along with smoother running and performance.
- *STIHL* chain saws feature an **Anti-vibration System** to help reduce operator fatigue and improve comfort.

The *STIHL Quickstop® Chain Brake System* is designed to stop the chain in fractions of a second and can be activated manually or by inertia if the kickback force is sufficient.

Visit Lucas Brothers Hardware's **Sporting Goods Section** for all of your hunting and fishing supplies: also carrying Red Wing, Muck, LaCrosse Boots & Berne Camo Clothing.
